Mandate The Accountant role is an important part of the accounting team and is responsible for preparing and completing year end engagements, including technical work. It is a technical role with a focus on strengthening technical competencies and developing a range of business skills.

About the role

- Accountability for the delivery of quality files
- Continuous learning, curiosity, and professional development
- Be a strong resource for the firm in file preparation skills while developing technical skills and business knowledge
- Maintain knowledge of professional standards
- Commitment to quality and ethical excellence
- Solution focused
- Participation with team members from across departments in the development of solutions
- Understand the firms' strategy and help achieve goals & objectives that align with the strategy
- Work with teams to deliver exceptional quality in files
- Completion of year-end work including tax returns
- Compliance with BAS practice management tools and standards

Compensation:

We offer competitive compensation, benefits and participation in a savings program. Details will be discussed with those selected for an interview.

About our firm:

BAS was established in 1988 and has grown quickly. We provide accounting, tax and advisory services to clients throughout Atlantic Canada. We have a high-performance culture and thrive on delivering exceptional quality to our clients. We provide many training opportunities for our employees and rewarding career advancement for those who want to keep challenging themselves. We are located in Dieppe, NB; close to the Greater Moncton Roméo LeBlanc International Airport, shopping malls and boutiques, nature parks and sporting events.

Individuals interested in applying are requested to send a cover letter and their resume to the attention of Monique Godin Deveau, Office manager, by email at hr@bascpa.ca

We thank all applicants for their interest; however only those selected for an interview will be contacted.
